

# AWARDS FOR **EXCELLENCE**

CALL FOR ENTRIES

You are invited to submit entries for the **CMA 2010 Biennial Awards for Excellence** in the use of precast concrete elements in the categories specified. The purpose of the awards is to recognise excellence in the use of these products and to honour those involved in the design and construction thereof.

### ENTRY FEE:

R850.00 per entry.

### ENTRY SUBMISSION

The following photographic material must accompany all submissions:

A minimum of two separate photographs (maximum five) – one showing a general view of the project and at least one showing specific details.

- Colour prints on Matt paper (untouched) suitably mounted flush on 2mm thick mounting board (12" x 16" in size) **and**
- A CD with a minimum photograph size of 350mm x 280mm at 300dpi for press release purposes.

**NOTE:** The judging is based on these photographs and it is in your interest to insure that the photograph portrays the project to its best advantage. The following tips may be of help: Most projects are at their best soon after completion. This particularly true for paving. Photographs should be taken at this stage. Ensure that the sun is in the correct position. For paving, photographs taken towards the sun will pick up the block definitions. Ensure that the project is clean and is free of rubble, efflorescence, cement staining, etc.
